Moved By: Wayne Banks

Seconded By: Kevin Quade

THAT Council for the Corporation of the Township of Brudenell, Lyndoch and Raglan hereby supports the following:

"WHEREAS official statistics from the Government of Ontario confirm that rural roads are inherently more dangerous than other roads;

AND WHEREAS, despite only having 17% of the population, 55% of the road fatalities occur on rural roads;

AND WHEREAS, rural, northern, and remote municipalities are fiscally strained by maintaining extensive road networks on a smaller tax base;

AND WHEREAS, preventing crashes reduces the burden on Ontario's already strained rural strained health care system; AND WHEREAS, roadway collisions and associated lawsuits are significant factors in runaway municipal insurance premiums. Preventing crashes can have a significant impact in improving municipal risk profiles;

THEREFORE, BE IT RESOLVED THAT the Township of Brudenell, Lyndoch and Raglan requests that the Government of Ontario take action to implement the rural road safety program that Good Roads has committed to lead. It will allow Ontario's rural municipalities to make the critical investments needed to reduce the high number of people being killed and seriously injured on Ontario's rural roads;

AND FURTHER THAT a copy of this resolution be forwarded to Premier Doug Ford, Hon. Prabmeet Sarkaria, Minister of Transportation, Hon. King Surma, Minister of Infrastructure, Hon. Rob Flack, Minister of Agriculture, Hon. Lisa Thompson, Minister of Rural Affairs, Hon. Trevor Jones, Associate Minister of Emergency Preparedness and Response, and Hon. The float trailer has been borrowed from the County over the years as well to move equipment around. Other uses the float will be used for is transporting culverts to construction sites. INFORMATION REPORT TO COUNCIL

Report Date: December 23, 2024
Date of Council Meeting: January 2, 2025
Prepared By: Kim Aide
Approved By: Virginia Phanenhour

Reason for this Report

To provide Council an updated rental price list for the BLR Community Center.

Recommendation

“THAT we the Council for the Corporation of the Township of Brudenell Lyndoch and Raglan hereby agree to implementing the updated Rental Rates for the BLR Community Center.”

Information

Brudenell, Lyndoch and Raglan’s Community Center pricing has remained the same for approximately 10 years. Since the rates were updated, costs have increased substantially such as heat, propane, wages, maintenance supplies.

Staff has contacted a number of neighboring communities to create a comparison of fees. (attached) Not all communities’ rates are “apples-to-apples” as some facilities offer more or less and some also have separate rates for holding the bar. The comparison chart has been formulated to match as close as possible to similar services.

In the past a number of keys were handed out to various individuals, this caused a lack of accountability to the facility. Staff has been implementing a process that ensures accountability and security of the BLR Community Centre by having access arranged through the Township. The Facility Attendant is key holder and opens and closes. (A Key does get provided to the renter for Stag & Does Packages and Wedding Packages only, as these types of rentals are a longer duration and require more time for renters to decorate and set up)

Currently BLR offers these incentives:

- Non-Profit receive a 25% discount
- Stag & Doe and Wedding Package - 25% discount off Wedding Pkg
- Funerals By Donation

Please note that the existing rental rates have some items that do not include tax, the recommended rates all include tax to make the process easier for renters.

Reason for this Report

To provide Council with Information regarding the use of the ice surface by PRPS.

Recommendation

That Council provide further direction on the matter.

Information

In the past the Township of BLR and RCDSB entered into a reciprocal agreement. This agreement was the exchange of ice surface time for kids skating during gym period and the TWP using the school gym for a basketball program. This exchange cancelled out any cost either way.

There is no current agreement in place and staff is asking for Council direction moving forward for 2025 ice surface time for PRPS.

During the 2024 season PRPS used the rink 7 days and totaled 38.5 hours. During the time that the students are there we are paying the Arena Attendant, 42 hours; as well as ice resurfacing costs twice per day.

Kids Ice Skating Rental of the arena cost is \$50.00/hour at regular rates.

Warden's Address

Key highlights

- November was a quieter month for Warden Peter Emon as he underwent hip surgery and spent time in the hospital recovering. During his hospital stay, he did host a meeting to kick off the Mesa Warming Centre project. This project is something to be proud of, as it has brought many agencies and neighbouring municipalities together to provide a positive impact to the County. The goal is to have the [Warming Centre](#) open in early December.
- He thanked members of County Council and staff for their ongoing support as he recovers. The Warden specifically thanked County Councillor Dan Lynch for representing him at a meeting for community leaders at Garrison Petawawa on November 19.

Delegations

- Warden Peter Emon presented the 2024 [Warden's Community Service Awards](#) to the following recipients in their respective categories:
 - Individual: Dan Poole of Whitewater Region;
 - Non-profit: Paddler Coop, Palmer Rapids with Ryan O'Connor accepting;
 - For-profit: The Valley Gazette, Madawaska Valley, with publisher Michel Lavigne accepting.
- Pascal Genevieve and Mark Brillon, CCG - Ainsworth presented the County of Renfrew's Climate Change Action Plan, providing a summary of the greenhouse gas inventory, proposed targets for reducing emissions by 2050, and outlining priorities and objectives going forward. Next steps are outlined in the report from the Development & Property Committee.
- CAO/Deputy Clerk Craig Kelley provided the annual report care on the County's 2023-2026 Strategic Plan, highlighting achievements of the past year under the identified priorities of financial sustainability, workforce development, community wellness and health care, shared services and resources, attainable housing and infrastructure and environmental resiliency.

Announcements

- County Council recommended that staff submit delegation request(s) at the upcoming Rural Ontario Municipal Association (ROMA) Conference that are consistent with the 2023-2026 County of Renfrew Strategic Plan, the 2024-2026 Economic Development Strategy, other current initiatives that require further advocacy, and previous delegations that addressed funding shortfall(s); and that the Chair of the appropriate Standing Committee, along with the Warden, be designated to attend the delegation meetings. A full list can be provided upon request of the CAO or the Clerk.

Operations Committee

Presented by: Glenn Doncaster, Chair

- The Road Rationalization Study, which was completed as part of the Transportation Master Plan, was presented to County Council. More information can be obtained by contacting the CAO or the Clerk, or by speaking to the Director of Public Works & Engineering.
- County Council adopted a by-law to finalize the transfer of County Structure C339 (Lynch Road Culvert) in the Township of Admaston/Bromley, which was reconstructed this year, to the County Road System effective December 1, 2024.
- County Council approved that the County of Renfrew section of the Ottawa Valley Recreational Trail, the Algonquin Trail, become part of the Trans Canada Trail Network. The acceptance of the Algonquin Trail into the TCT network provides a large number of funding opportunities as well as greater overall promotion for the County's recreational trail. The Algonquin Trail is the County of Renfrew's portion of the Ottawa Valley Recreational Trail (OVRT). The entirety of the OVRT, from Smith Falls to Mattawa, is being accepted into the TCT network. TCT is in contact with the other OVRT partners, County of Lanark and Township of Papineau-Cameron regarding their sections. This is a significant development for the County of Renfrew, and its partners along the Ottawa Valley Recreational Trail, as they have been working collectively on this designation since 2017.
- Council discussed the Operations Committee's direction to staff that Contract PWC-2025-45, the rehabilitation of County Structure B145 (Combermere Bridge), located on County Road 62 (Combermere Road), in the Township of Madawaska Valley, would be re-scoped to span over a two-year construction period and retendered, after project costs came in much higher than originally estimated due, in part, to the condensed proposed project timeline.

Community Services Committee

Presented by: Anne Giardini, Chair

- The County of Renfrew has been awarded the Ontario Municipal Social Services Association's (OMSSA) 2024 Local Municipal Champion Award in recognition of the leadership and vision in implementing the region's Mesa wellness initiative. The County of Renfrew has been invited to present on Mesa at the OMSSA 2025 Exchange Conference, showcasing key highlights of community achievements. The OMSSA Exchange Conference will be taking place from May 13-14, 2025 in Toronto.

Development & Property Committee

- The Ottawa Valley Tourist Association (OVTA) has been in discussions with the Town of Petawawa regarding potential implementation of a Municipal Accommodation Tax (MAT) and naming the OVTA as the eligible tourism entity. The Town is proposing to implement, effective January 1, 2025, a rate of 3%. Draft agreements from the City of Pembroke and Town of Petawawa have been presented to the OVTA Board of Directors. The projected annual combined MAT revenues shared with the OVTA from both communities is approximately \$298,500.
- County Council passed a resolution to support the Ottawa Valley Tourist Association's request that Statistics Canada reinstate tourism data reporting at the census level for communities in Ontario. In 2016, Statistics Canada stopped providing tourism data at the census level, creating a gap in the availability of information at the local level. Destination Ontario and Destination Canada provide tourism data, but the information is only available at the regional tourism organization level.
- County Council received the Climate Action Plan as presented and resolved that an Ad Hoc Climate Action Committee be formed to review the recommendations of the plan and provide possible implementation recommendations to Committee.
- In September 2024, County Council adopted By-law 133-24 that entered the County into a Co-Ownership Agreement with the Town of Deep River for the shared opportunity to purchase the discontinued Keys Public School in Deep River for the purpose set out in the terms and conditions respecting the ownership, development and management of the asset. The Renfrew County District School Board has formally accepted the revised terms and conditions outlined in the Agreement of Purchase and Sale for Keys Public School. This agreement signifies the mutual consent of all involved parties to proceed with the transaction, ensuring that all stipulated provisions have been reviewed and agreed upon.
- County Council adopted a by-law to execute an agreement with the Ministry of Transportation for funding through the Electric Vehicle (EV) ChargeON Program – Community Site Stream for the installation of six Level 2 EV charging ports to be located at the County Administration Building, 9 International Drive, Pembroke, Ontario, and six Level 2 EV charging ports to be located at Renfrew County Place, 450 O'Brien Road, Renfrew, Ontario. More information will be forthcoming in 2025.
- County Council adopted a by-law authorizing the Warden and Chief Administrative Officer to enter into a short-term lease agreement, with options to renew, with the Ontario Addiction Treatment Centre, Pembroke (OATC), located at 156 John Street, Pembroke, Ontario, for space to be used as a Mesa Warming Centre; and that funds from the Homelessness Prevention Program (HPP) and Municipal contributions be dedicated towards this initiative.

Health Committee

Presented by: Michael Donohue, Chair

The County of Renfrew Emergency Services Department is responsible for the contract for call-taking and fire dispatching. The Public Works and Engineering Department is responsible for the maintenance of call-taking and dispatching radio and notification equipment and technology.

Finance & Administration Committee

Presented by: Jennifer Murphy, Chair

- County Council supported the Eastern Ontario Wardens' Caucus resolution – Calling for Investment in Municipal Infrastructure for Eastern Ontario's Small and Rural Communities. The Council of the Corporation of the County of Renfrew joins the Eastern Ontario Wardens' Caucus, the Association of Municipalities of Ontario, and the Federation of Canadian Municipalities in calling on the Federal and Ontario Governments to immediately and sustainably partner with Municipal Governments by investing in both the new and ongoing maintenance and repairs of municipal infrastructure in Eastern Ontario's small rural municipalities. The resolution asks that the Federal and Ontario Governments immediately review data and work together to implement solutions based on the [EOWC's Municipal Infrastructure Policy Paper](#) in partnership with small rural municipalities.
- County Council supported a resolution requesting the Redistribution of the Provincial Land Transfer Tax and GST to Municipalities for Sustainable Infrastructure Funding. The request is that the redistribution of the Land Transfer Tax and GST be structured to provide predictable and sustainable funding to municipalities, allowing for better long-term planning and investment in infrastructure projects that benefit local communities, thus ensuring that local governments receive a fair share of the revenue to address critical infrastructure needs.
- County Council adopted a by-law to govern the proceedings of council and committees of the County of Renfrew. This new Procedural By-law follows discussions during a special meeting of County Council in October and further discussions during the November Finance and Administration Committee. The most significant change is to the committee structure, whereby County Council will move to Committee of the Whole in January 2025 with a realignment of the committees to Joint Services – Health, Joint Services – Community Services, Corporates Services, Development and Property and Operations. There will now be two meeting days per month; the second and fourth Wednesday, as per the published calendar.
- County Council approved amended Corporate Policies: Short-Term Disability Plan; Long-Term Disability Plan; Employee Incident/Accident/Near Miss Reporting; Workplace Safety and Insurance Board; Return to Work/Stay at Work; and the newly developed Corporate Policies: Accommodations; Accommodating Disabilities; Non Work-Related Illness/Injury; and Personal Time Off. Dear Hon. Sylvia Jones:

I am writing to express my support for the Robbie Dean Family Counselling Centre as they seek funding from the Ministry of Health to expand their vital mental health services in Renfrew County. During the past 11 years, the Centre has established itself as an indispensable resource for individuals and families in our community, providing free, accessible, and culturally adaptive mental health counselling to those who need it most. Research has shown the quality of a student's mental health has a bearing on their academic performance, their social relationships, and their future wellness, employment, and health. It is thought between 50 and 70 per cent of mental illnesses emerge before the age of 18 years.

In 2022, Statistics Canada reported suicide is the second leading cause of death in youth and young adults aged 15 to 24 years. They further report slightly over 20% of all adolescent deaths are attributed to suicide. This causes a significant and serious ripple effect in the remainder of the community. Our community is no different, and I am certain the Robbie Dean Family Counselling Centre can offer specific details. As you are no doubt aware CAMH reports "the economic burden of mental illness in Canada is an estimated \$51 billion per year including health care costs, lost productivity and reductions in health-related quality of life". The Robbie Dean Family Counselling Centre is uniquely positioned to address the pressing mental health needs of our region.

Their programs serve over 1,200 individuals annually and target vulnerable populations, including Indigenous peoples, low-income individuals, seniors, farmers, and newcomers. In light of the increasing cost of living, rising poverty rates, and limited access to affordable mental health services, the Centre's work is more critical than ever.

Programs offered support people from various walks-of-life as they develop skills: identifying and managing conflicting or overpowering emotions, examine or guide in building healthy relationships, planning, organizing and completing daily activities we take for granted. All of the aforementioned in combination with problem-solving can assist our community members with their present and future mental health. It can also assist present day students stabilize and improve their academic performance.

Informed family members or friends in the community noticing warning signs or being aware of risk factors of the need for mental health support is crucial. Community members in need may not feel comfortable in confiding in staff at and accessing services at the crowded frenzied environment of the local emergency room.

As a key stakeholder in the province of Ontario, the County of Renfrew plays an important role in advocating for and supporting services that enhance the quality of life for its residents. Our government provides child care, Ontario Work, Paramedic Services, Renfrew County VTAC, Renfrew County Housing and a variety of outreach assessment and treatment services. We feel it is vital to the health of our community to strengthen the Robbie Dean Family Counselling Centre's ability to maintain programming, reduce barriers to care, and build a healthier, more inclusive community for all by granting them sustainable and predictable funding

Thank you for considering this important request. We want to ensure that the Robbie Dean Family Counselling Centre continues to be a lasting beacon of hope and healing in our community.

I can be reached at warden@countyofrenfrew.on.ca or 613-401-7186 at any time, or through gdombroski@countyofrenfrew.on.ca.

Declaring Toronto a Paid-Plasma-Free Zone - by Councillor Chris Moise, seconded by Councillor Alejandra Bravo

City Council Decision

City Council on November 13 and 14, 2024, adopted the following:

1. City Council express its opposition to the operation of private for-profit blood collection companies in the City.
2. City Council forward this item to Canadian Blood Services, federal, provincial and territorial Ministers of Health, Grifols Pharmaceuticals, and all Ontario Municipalities and request that they support only voluntary blood and plasma collection, where donors do not receive payment for their blood or plasma.

Summary

In the City of Toronto, we uphold the principle of voluntary blood and plasma donation, acknowledging its vital importance as a public good. Our commitment derives from the lessons of Canada’s tainted blood crisis, which tragically claimed approximately 8,000 lives. The subsequent Royal Krever Commission urged a fully voluntary, non-payment oriented blood and plasma donation system.

Within our Ontario healthcare system, we perceive blood donations as a priceless public resource, underscoring the need to safeguard the integrity of the public, voluntary donor system.

The Voluntary Blood Donations Act of Ontario strengthens this stance, legislating against the payment of donors and prohibiting donors from receiving financial compensation for their blood or plasma.

Canada Blood Services plans to open five paid plasma clinics, including one in Toronto, by 2025. This issue needs immediate attention and action. The public health community has raised concerns about Grifols Pharmaceuticals' plans to open a Toronto clinic. It's vital we protect vulnerable residents from exploitation by for-profit plasma collection companies offering cash for blood-plasma, a predatory practice.

In bringing this motion forward, we strive to reinforce the principles of voluntary, non-remunerated blood and plasma donation, protecting both the integrity of Canada’s public blood system and the dignity of blood donors.

Motion # 12/11/24 - 02

Title: Property Taxation Implications Related to Non-Market Valuation of Electricity Industry Properties, CAO General-2024-33

Date: Wednesday, December 11, 2024

Moved by: Rory Cavanagh

Seconded by: Beth Blackwell

Whereas the Municipality of Kincardine is a proud host community of the Bruce Nuclear Generating Site where Bruce Power generates 30% of Ontario's electricity needs; and

Whereas two decades ago the Province of Ontario adopted a property tax assessment model that continues to apply to Ontario's nuclear generation facilities; and

Whereas the Province assessment model includes non-market property valuation for electricity generating properties; and

Whereas the Municipality of Kincardine undertook a study in 2024 which has shown that the Provincial assessment model is compromising fairness and shifting the tax burden away from the electricity industry properties and onto the broader property tax base within the host community; and

Whereas the study demonstrated that this is primarily attributable to the assessed value of the subject properties being held almost static over several reassessment cycles, resulting from the Provincially prescribed rules for electricity generating, transmission and distribution properties; and

Whereas the Provincial model results in a disparity between the continuously updated market values assigned to the majority of properties and the static, non-market-based formula applied to electricity industry properties means that the tax burden shifts onto non-industry taxpayers; and

Now Therefore be it Resolved That municipal staff be directed to send communication to the Premier of Ontario, Minister of Energy and Electrification, the Minister of Finance, and the local MPP, to request that the Province undertake an immediate review and update the property tax assessment model for Ontario's nuclear generation facilities and other properties within the electricity industry, and copy the Association of Municipalities of Ontario and all Ontario Municipalities.

Carried.

Stage and Sound System Management

- Stages will be placed and directed strategically, away from neighbors. Sound systems will never exceed the height of the trees, providing a wall for the sound.
- Cardioid subwoofer deployment directs bass toward the audience while canceling it behind the speakers, reducing sound spill into neighboring areas. By using strategically placed subs with delay and phase adjustments, this setup minimizes low-frequency noise for neighbors while maintaining impactful sound for the event. Please refer to the diagram below.

- <https://fohonline.com/articles/tech-feature/cardioid-subwoofer-setups/>

- Specialty sound equipment, such as directional speaker systems and advanced acoustic technology, will be used at the event to ensure that sound remains concentrated within the event area, minimizing dispersion or leakage to surrounding neighborhoods.

- <https://vimeo.com/video/899668554>

Sound Leveling

- Sound levels will be monitored continuously using decibel meters to ensure they remain within acceptable limits as per local noise bylaws.
- Volume reductions will occur during late-night hours.

- **Expected Attendance:** 5000 Attendees
- **Camping Areas:** A designated camping ground will accommodate attendees staying overnight. This will be on the field on the other side of the highway.

We will be proactively taking measures to ensure the safety and security of all attendees, event staff, and the surrounding community. The following arrangements have been made:

Security and Crowd Control

- **Licensed Security Personnel:** A team of 100 security professionals from Armada North Inc. will be on-site to manage crowd behavior, enforce event policies, and handle any emergencies.
- Our head of security will be consistently in contact with your office, we will establish a chain of command, our resources will be your resources, and as we progress in planning we will provide you with a detailed Emergency Action Plan to identify and respond to actual and potential emergencies in a prompt and disciplined manner, with the goal of protecting persons and property at the event site.
- Security personnel will provide security for all performances, including backstage areas, stage performance areas, production and VIP areas on the stage deck, in the barricades in front of the stages, and in the front of house mix positions and adjacent VIP areas. Stage barricades will be industry-standard inertia-style barricades and will be erected to ensure there is adequate freedom of movement for Security personnel to operate between the barricade and stage. Barricade structures will be designed to allow for Security personnel to rapidly respond into General Admission areas as required.

- Security will be positioned at emergency exits on festival dates when the venue is open to patrons to ensure that they can be opened quickly and effectively should they be required. During all phases when the venue is not open to patrons, emergency exits will either be locked or staffed with Security personnel.

Traffic Management

- **Traffic Control Staff:** Traffic controllers from ARX Fencing & Logistics will be deployed at key intersections and entry/exit points to manage vehicular flow and ensure pedestrian safety. See attachments for details.
- **Parking Arrangements:** Parking will be limited to designated areas with clear signage to prevent congestion. Event staff will direct vehicles to minimize disruption to public roadways. See attachments for details.

Property Protection

- **Perimeter Fencing:** The event site and campgrounds will be secured with temporary fencing to prevent unauthorized access and protect nearby properties. ARX Fencing and Logistics, a company that specializes in special events, will be the company used for this matter.
- **Additional Patrolling:** Security personnel will monitor the perimeter to address any concerns raised by neighboring property owners.

We are committed to maintaining open communication with your department to ensure a smooth and secure event. Should there be any concerns or additional requirements, please do not hesitate to reach out. We would also appreciate any guidance or recommendations you may have for coordinating effectively with local law enforcement.

As we progress we can always arrange a meeting or call to discuss these plans further at your earliest convenience. As we get closer to the event we will continue to keep you updated with more detailed information, but we just wanted to give you a sense of what we have on our radar.

Thank you for your attention and support. We look forward to working with you to ensure a safe and successful event.

SCHEDULE A

The current owners wish to propose two severances over their property municipally known as 81 Yukes Drive, Quadeville, Ontario. The severances would provide each new severed piece with approx. 290 feet of shoreline along Yukes Lake (Formerly known as Anderson Lake), and access would remain via either the public highway, the right of way (along Yukes Drive) or over the private road (another row), being Fieldstone Lane. The total current acreage is approximately 14 acres. The PIN is 57504-0047 (Schedule B).

The current legal description is found in Instrument R431081 (the relevant page being attached as schedule C). The property can be pieced together from several maps, as per schedule D, the yellow highlighted areas.

The three lots would be irregularly shaped and approximately 1.5 ha (RETAINED), 1.7 ha (First parcel), and 2.23 ha (Second parcel) respectively, as per the attached sketch in Schedule E.

The retained lot would be the northern most lot, which currently has an existing dwelling/cottage served by a well, and hydro. That property would continue to have access over the ROW, and run alongside the ROW, and have a shoreline frontage of about 290 feet, and remain subject to the ROW over Part 3, Plan49R1632. Applications have frontage of 114 m, depth of 154m.

The first parcel to be severed (Application A) would front the public highway (515) for about 350 feet, and have access over Fieldstone Lane (about 750 Feet). It would also have a shoreline frontage of about 290 feet. This parcel is described as having a frontage of 225m, and a depth of 202m.

The second parcel (the middle piece) (Application B) would front the Public Highway (515) and remain together with Part 1, Plan 49R11146 for about 600 feet being the ROW. It would also have a shoreline frontage of about 290 feet.

The severed lands are both vacant lands without a septic or well, but they would be installed if necessary. All three properties have a hydro line running approximately along the road that is the ROW.

The current owners would like to sell the three lots starting with the furthestmost south lot running along Highway 515 and Fieldstone Lane. The timing of said sales is unknown, as such concurrent stamps for all three properties will be requested.

Building permits are not being sought by the current owners, however, the purpose of the severance is to allow for building lots to be created out of the two newly severed lots. If that's not possible, then they would be sold as vacant/recreational land. The third or retained lot, already has a dwelling/cottage, as stated.

EMPLOYEE REPORT

Report Date: January 3, 2025

Date of Council Meeting: January 8, 2025

Prepared By: Jordan Genrick

Approved By:

Reason for this Report

To provide Council with information regarding winter road patrols and usage of Municipal pickup.

Recommendation

That Council for the Corporation of the Township of Brudenell, Lyndoch & Raglan grants the Public Works Supervisor or designate permission for home to work travel in a Municipal pickup for the purpose of winter road patrolling.

Facts and Issues

During the months of November through April the Municipality is required to conduct; on top of scheduled road patrols, winter road patrols based on forecasted weather. As per Ontario regulation. if it is determined by the Municipality. that the weather monitoring indicates that there is a probability of snow accumulation on roadways, ice formation on roadways or icy roadways, the standard for patrolling is, in addition to scheduled patrols, to patrol highways that the Municipality selects as representative of its highways, at intervals deemed necessary by the Municipality, to check for such conditions. Generally, this interval is once daily, unless determined otherwise by the Operations Manager. Over that past three winters the public works supervisor would conduct an early morning patrol in order to give direction to incoming public works staff at the start of each day. This practice has proven to be more efficient in comparison to previous practice of sending plow trucks out without conducting a patrol and determining what the needs (if any) are. Allowing staff usage of the pickup provides convenience as the patrol can begin once they leave their driveway. In the absence of the public works supervisor a selected public works staff member would assume the patrol duty and be provided the pickup.
